In an era of corporate belt tightening we can produce great results faster and for a fraction of the cost of the large, multi-national consulting firms.

About ICS

In an era of corporate belt tightening ICS can produce better and faster results for a fraction of the cost of the large, multi-national consulting firms.

ICS Consultores integrates law and accounting with a clear and consistent focus on taxes.

Founded in 1993, ICS began as a specialized boutique-style consulting firm offering value added tax planning, auditing and business structure advice from both the legal and accounting point of view.

Responding to the needs of the market, an accounting department was soon opened providing clients with cost efficient options to outsource basic accounting functions. Over time, more auditing professionals were added to our staff.

Today, ICS is recognized as a highly specialized firm for tax advice and planning, preventative tax auditing, and tax litigation

Many of our clients have left the big 4 accounting firms not only because our specialized services and competitive cost structure, but also because of the value added by our team's passion for excellence and creativity.

We offer trustworthy and tested advice and interpretation of business trends, based on our expert view of current and potential economic and financial events. We are proud that we are consistently able to legally lower the taxes our clients are required to pay.

Our Services

▶ Tax Audits

What risks are you taking?

Our auditors can emulate a tax audit from the Revenue Authorities, reviewing and questioning both your compliance as well as your material tax obligations. We can then tell you if your accounting department is operating in a manner that might represent a fine or a tax contingency for you.

We will identify problems and provide you with solutions to insure compliance and eliminate unnecessary taxes. When acquiring a business in Costa Rica, we can perform tax compliance due diligence in order to prevent the new owner from being liable for taxes during the statute of limitations period.

▶ Financial - Controls Audit

Keep your business in compliance and control.

We accomplish this through quarterly internal review of balances and the most relevant reports generated from your internal accounting department.

In addition we review of specific accounts and balances in order to test controls and identify areas where new controls are required.

This service is performed during two consecutive weeks per quarter. Prior to each auditor's visit, the company's accounting department will be advised to prepare and make available specific documentation for review

▶ Tax Advice

Lower your taxes legally and safely.

We provide complete and thorough project analysis in order to recommend the most efficient legal and business structure from the tax point of view.

We prepare written reports for boards of directors, tax review letters, review of tax returns, assessment of tax impact of business decisions, labor law, tax law related consultation, tax contract reviews.

▶ Accounting

On time information.

ICS can be your company's accounting department and provide you with reliable information to make business decisions. Accountants with tax expertise will deliver on time reports in English and will help you interpret the data.

You can check your balances and reports from anywhere in the world with reliable and safe web access.

Payroll services are provided as well.

▶ Tax & Banking Economic analysis.

Advice on banking law, finance and regulatory matters, including supervision and control by regulatory Agencies.

ICS can undertake studies on the economic and financial conditions in the country, including specialized sectors of the economy. Monthly and quarterly seminars on the evolution and outlook of the international economy are also available.

- ▶ Analysis of the macroeconomic environment and the business climate
- ▶ Evaluation of the political environment and risk analysis on business decisions
- ▶ Economic and financial risk analysis
- ▶ Up to date analysis of the Costarican and Centralamerican economy

The best people doing the best job

Through our investment in specialized accounting and financial software and the technical knowledge of our staff, we are capable of reducing our reporting times and improve knowledge management capabilities.

ICS has grown solely by word of mouth through references from its clients. We value our reputation and always try to exceed our clients' expectations. We also value our team and encourage long lasting relationships which make ICS a great place to work.

Our corporate values go with us wherever we go, making sure that excellence, creativity, team work and trust are the ingredients of all our services and products.

These intangibles are reflected in the quality results and solid support for your bussiness.
